VISION ITINERANT TEACHER
JOB DESCRIPTION

TITLE: Vision Itinerant Teacher

QUALIFICATIONS: Professional Educator License: Endorsement in Blind or Partially Sighted, concentration in visual impairments. Meets the highly qualified requirements as a Blind or Partially Sighted, concentration in visual impairments teacher and for the grade level/core academic subject area(s) in which the teacher is assigned.

REPORT TO: Director of Special Education, Assistant Director and Coordinators

FUNCTION: Provides services to students meeting the criteria and identified as having visual impairment so educational and functional progress can be enhanced.

PROGRAM: The Vision Itinerant Teacher serves students who require educational services due to a vision loss. The Vision Itinerant Teacher addresses the educational, communication, functional and social/emotional needs of the student and provides guidance to the student’s family and school personnel. The Vision Itinerant Teacher travels to multiple buildings to directly serve students, and effectively consults with a variety of staff and teams to identify students with visual impairments and to address individual student needs.

RESPONSIBILITIES:

A. Planning and Preparation

The special education teacher understands the philosophical, historical, and legal foundations of special education. The special education teacher understands how students differ in their approaches to learning; creates instructional opportunities that are adapted to diverse learners; understands instructional planning; and designs instruction based on knowledge of the discipline, student, community, and curriculum goals; of all students ages three through twenty-one. In planning and preparation, the teacher demonstrates knowledge of content, students, instructional outcomes, resources, instructional practice, and designing assessments.

The Vision Itinerant Teacher:

- Develops short and long-range plans consistent with curriculum goals, learners’ diversity, and learning theory.
- Demonstrates a working knowledge of functional vision assessments, utilization of Braille devices, supports transitions within the educationally setting; while supporting the transference of skills across settings including home and community.
• Reviews/obtains updated, available ophthalmology/medical information regarding the student’s degree/type of vision loss, discrimination ability, and use of depth perception or overall physical development of the eye, and shares this knowledge with parents, teachers, and other appropriate staff. This information is used in planning for the student’s instructional and environmental needs and necessary accommodations/modifications.

• Effectively summarizes verbally and/or in a written format, information for staffings and inservices.

• Provides in-service (formal and informal) for mainstream teachers and other support personnel as appropriate, including suggestions for environmental modifications, preferential seating, communication, understanding the impact of vision loss, and use of assistive technology or devices.

• Effectively communicates/consults with staff, including general education and special education teachers, related services personnel, and nurses.

• Utilizes strong organizational skills and flexibility to establish and maintain appropriate schedules for direct service, consultation, identification of students with vision loss, assessment, and equipment monitoring.

• Demonstrates working knowledge of current legislation, regulations, policies, and ethical issues related to the provision of educational services, including least restrictive environment, due process, assessment, discipline, transition, supplemental services and supports, specialized health care and assistive technology, to individuals with all types of disabilities across the age range.

• Understands issues in definition and identification procedures for individuals with disabilities, including those individuals from culturally and/or linguistically diverse backgrounds.

• Understands characteristics of individuals with disabilities across the age range, including levels of severity, multiple disabilities and their influence on development, behavior and learning; with knowledge about the impact of language disorders, processing deficits, intellectual abilities, behavioral/emotional/social disorders, and physical (including sensory) disabilities on learning and behavior.

• Understands the Common Core Standards and prepares effective instructional strategies and resources for teaching the scope and sequence in the academic, social, and vocational curricular domains in the general curriculum.

• Plans effective instructional strategies for adapting or modifying general curriculum to meet the needs of individual students, and strategies to implement and prioritize longitudinal, outcome-based curriculum, including social, language, academic, vocational skills, and life skill domains (i.e. domestic, recreation/leisure, vocational, and community).

• Utilizes specialized materials, equipment, and assistive technology for individuals with disabilities and understands the use of adaptive equipment for students with disabilities to plan and prepare for the integration of assistive and instructional technology to meet a student’s individual needs.

• Prepares and utilizes assessment methodologies to adapt for individual students as appropriate, including physical adaptations to meet a student’s individual needs.

• Maintains and inventories curriculum and assistive/adaptive technology.
B. The Learning Environment

The special education teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction; developed upon respect and rapport, to create a positive learning culture with active engagement in learning, and self-motivation while managing classroom procedures and student behavior.

The Vision Itinerant Teacher:

- Creates an environment that provides appropriate adaptations, special equipment and techniques to ensure full participation for students with a vision loss in the general education environment.
- Understands basic classroom management theories and methods; with strategies for individual behavior management, crisis prevention, intervention, de-escalation techniques, and the balance between classroom management with academic teaching strategies.
- Implements strategies for assessing learning environments and conducting functional behavioral assessments within the environment.
- Understands the characteristics of environments, including materials, equipment, and spatial arrangements that facilitate development, learning and interaction among students.
- Creates a classroom culture which is a cognitively busy place, characterized by a shared belief in the importance of learning; establishes high expectations and personal achievement.
- Understands the aspects of schedule, routines, and transitions that promote development and learning.
- Demonstrates ways in which technology can assist with creating and managing the learning environment, incorporating the verbal and visual redirection and classroom expectations.
- Provides supervision of paraprofessional educators and sign language interpreters (as applicable).
- Consults with teachers and therapists to plan for student's needs and required adaptations, modifications, and use of assistive/adaptive technology.

C. Instruction

The special education teacher understands the central concepts and methods of inquiry; uses a variety of instructional strategies to encourage students' development of critical thinking, problem solving, and performance skills; and creates learning experiences that make content meaningful to all students. The special education teacher understands the educational assessment process and uses various assessment strategies to support the continuous development of all students ages three through twenty-one.

The Vision Itinerant Teacher:

- Demonstrates the ability to assess student needs and progress, and its relationship to vision loss within the educational setting; sharing information professionally in a written/verbal format at in-services, team meetings, and/or staffings.
• Demonstrates the ability to assess student needs and progress, and its relationship to vision loss. Shares information professionally in a written/verbal format at staffings.

• Implements effective researched-supported instructional strategies for basic sequences of skills in the academic, social, and vocational curricular areas; including techniques for modifying instructional methods, curricular materials, and the environment to meet learners’ needs that are appropriate to those learners’ ages and skill levels.

• Uses instructional time effectively and efficiently; while facilitating the integration of related services into the instructional program.

• Chooses and implements instructional techniques and strategies that promote successful transitions for individuals with disabilities. Creates varied opportunities for all students to use effective written, verbal, nonverbal, and visual communication appropriate to each student.

• Understands assessment as an educational process including how to interpret information obtained from standardized and non-standardized assessment, analyze and use to develop instruction and goals for individual students.

• Implements a variety of procedures for identifying student's learning characteristics and needs, monitoring student progress, and evaluating learning strategies and instructional approaches.

• Effectively utilizes Response to Intervention (RtI) and supports students utilizing appropriate progress monitoring tools to gauge individual student achievement; understanding these assessment procedures is an on-going process and efficient data collection and analysis will identify student needs.

• Implements accommodations and modification as identified for individual students on national, state, local and classroom assessments.

• Implements strategies for assessing students’ skills within curricular areas including academic, social and vocational.

• Implements classroom and individual behavioral management plans and actively participates in functional behavioral assessments and behavioral interventions plans for students.

• Understands and effectively utilizes computerized web-based systems for documentation procedures/communication, goal development and modification, progress monitoring, performance assessment, accommodations/modifications, program supports and overall IEP information.

D. Professional Responsibilities

The special education teacher understands teaching as a profession, maintains standards of professional conduct, and provides leadership to improve students’ learning and well-being. The special education teacher is a reflective practitioner who continually evaluates how choices and actions affect students, parents, and other professionals in the learning community and actively seeks opportunities to grow professionally.

The Vision Itinerant Teacher:

• Provides information and emotional support for students and families to promote understanding and coping skills for their child's vision loss.
• Provides frequent and appropriate information to families about the instructional program and conveys information about individual student progress in a culturally sensitive manner.

• Has working knowledge of resources, strategies, networks, organizations, and unique services for individuals with disabilities and their families including career, vocational, and transition support, including possible funding agencies and financial sources for secondary aged students (local, state, and federal).

• Engages in professional development to stay current on researched-based instructional strategies and services, and seeks additional resources and assistance as needed to meet the individualized needs of students.

• Understands the importance of the teacher serving as a role model and advocate for all students.

• Participates in student, staff and professional meetings including behavior management plans, functional analysis of behavior, eligibility, placement, IEP and annual reviews.

• Understands rights to privacy, demonstrates confidentiality, and respect for differences among all persons interacting with individuals with disabilities.

• Collaboratively works with community agencies and outside therapists for students and understands the reciprocal relationship of sharing confidential information with these individuals.

• Completes required formal written evaluation(s) for assigned paraprofessional(s) demonstrating understanding of the evaluation process under the supervision of the Director or his/her certified designee.

• Observes and follows all PASEC policies and procedures; maintains high levels of professionalism and commitment through punctuality and attendance.

• Performs duties as assigned by the PASEC administration.
